DIRT TARPS

Slingco's range of heavy-duty, re-usable dirt tarps have been created with safety in mind. Keeping workers out of awkward, injury-prone positions is better for their long-term health and the company's bottom line. Dirt tarps have become a must-have product at utility construction sites.

You can find Slingco Dirt Tarps being used at pole change-outs, transformer terminations, pedestals, as well as underground gas, telephone, and other underground utility applications.

In fact, with the ability to move crushed rock, sand, dirt, wet cement, dig spoils, and other contaminated soil, there are few reasons NOT to have a Slingco Dirt Tarp on the project!

- ✓ Heavy-duty webbing and lifting loops
- ✓ Double stitched for reinforcement and durability
- ✓ Simply clean, dry, store, and re-use!
- ✓ Compact enough to store on truck when folded
