

HINGED BOW SPRING CENTRALISERS

WARNING

Cancer and Reproductive Harm: www.P65Warnings.ca.gov

KEY FEATURES

- ✓ Exceeds API Spec 10D
- ✓ Made of steel plate and spring steel material
- ✓ Hinge allows for easy installation

Bow Spring centralisers provide high restoring forces to centralize tubing and casing within a well. Our Hinged Bow Spring Centralisers make installation easier with hinged opening to wrap onto tubing or casing. Pins secure the centraliser. Use with stop collars to maintain position of the centraliser.
