

HINGED BOW SPRING CENTRALISERS

⚠ WARNING

Cancer and Reproductive Harm: www.P65Warnings.ca.gov

KEY FEATURES

- ✓ Exceeds API Spec 10D
- ✓ Made of steel plate and spring steel material
- ✓ Hinge allows for easy installation

Bow Spring Centralizers provide high restoring forces to centralize tubing and casing within a well. Our Hinged Bow Spring Centralizers make installation easier with hinged opening to wrap onto tubing or casing. Pins secure the centralizer. Use with stop collars to maintain position of the centralizer.
